

# Call for Tutorials

*in conjunction with the APWeb-WAIM Joint Conference  
on Web and Big Data 2017*

## Call for Tutorials

APWeb-WAIM Joint Conference on Web and Big Data 2017 invites submissions for Tutorial (advanced seminar) proposals on all topics covered by the conference including Web technologies, database systems, information management, software engineering and big data.

The conference will host several one-session tutorials, lasting 1.5 hours.

## Submission Guidelines for Tutorial Proposals

Tutorial proposals should be submitted through the submission site (to appear). Submission should be at most 4 (four) pages with the same format as conference research papers. Please see the submission guidelines.

**Each submission should include the following information:**

- The proposed tutorial title
- An abstract
- An outline detailing scope and depth of coverage of the topics
- A short description of the intended audience
- A biography of the presenter(s), along with contact information

Important Dates
<u>Tutorial Dates</u> July 07-09.2017
<u>Submission Deadline</u> <b>March 31, 2017</b>
<u>Notification</u> April 14, 2017

If the tutorial or an earlier version has been presented elsewhere, the proposal should indicate those respective events (and dates), and how the current proposal differs from other editions of the tutorial.

A short description of the tutorial (up to 4 pages) will be included in the conference proceedings. Tutorial slides will be made available to conference participants after the conference.

## Tutorial Chairs

Muhammad Aamir Cheema (Monash University, Australia)  
Andreas Züfle (George Mason University)
